T TRIM

T Trim Panels are designed to create a clean and uniform joint between two soffit panels. The T-profile trim is fixed at the panel junction, allowing both panels to fit securely on either side, ensuring proper alignment, a seamless joint, and a balanced, professional finish.

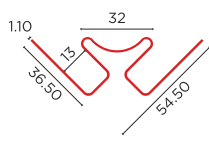

J TRIM

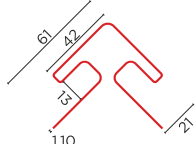

J Trim Soffit Panels are designed to provide a neat and professional edge finish for soffit installations. The J-profile trim is fixed along the edges of the installation area, after which the soffit panel is smoothly inserted into the trim groove and secured to the framework.

INNER TRIM

OUTER TRIM

THE INNER AND OUTER TRIMS WILL BE AVAILABLE AS PER THE ORDER AND WILL BE SUPPLIED ACCORDINGLY
